Refinancing rate was reduced by 0.25 percentage point

At the regular meeting of the Monetary Policy Committee of the National Bank of Tajikistan dated April 26, 2024, No. 37, the decision was made to lower the refinancing rate by 0.25 percentage points and set it at 9.25 percent per annum.

This decision was made taking into account the stabilization of domestic and world prices for goods and products and due to the fact that the inflation rate is below the established target.
